

ADVANCED DIPLOMA OF THERAPEUTIC YOGA TEACHING

GOVERNMENT ACCREDITED

11335NAT

CRICOS 117862D

Advanced Diploma of Therapeutic Yoga Teaching from the Health Institute Australasia is the third and final part of our Yoga Teacher Training Program. It is an 1800-hour Government Accredited and CRICOS Approved Course.

This is the highest yoga qualification you can obtain not only in Australia but in the world with our Advanced Diploma course being 1800 hours.

SHANTI YOGA

The Advanced Diploma of Therapeutic Yoga Teaching is the first step along the road towards becoming a very real master of a small section from the vast body of the ancient, healing art of yoga that can have tremendous benefits for you, in your life and the lives of others. Through its use, as a true master, you can eliminate stress and fatigue, and with deep experience, remove disease from your life.

This course follows the Diploma of Yoga Teaching, which you must complete first and which fully qualifies you as a yoga instructor.

PURPOSE OF THIS COURSE

The Advanced Diploma of Therapeutic Yoga Teaching is designed to provide participants with a thorough knowledge of more advanced asanas, knowledge, skills and specific competencies for the provision of the Advanced Diploma of Therapeutic Yoga Teaching qualification. This qualification arises from the Industry's vision for the future services in yogic health and what the workforce for yoga teachers of the future will look like. The course is designed to train the yoga teacher of the future to address yoga workforce development priorities, support what is in place, and address barriers to workforce development and activities. Thus the primary purpose of this qualification is to equip the individual with advanced skills and knowledge to become a senior yoga teacher and to be able to teach yoga to a wider audience.

PRACTICUM TUTORIALS

Self Mastery
Yoga Health
Yoga Relationships
Yoga body, Aasana
Yoga breath, Pranayama

Yoga meditation, Dhyana
Yoga language, mantra, kirtan, bhajan, sanskrit
Yoga leadership
DHARMA: Journey with Purpose
ARTHA: Journey with Success
KAMA: Journey into Healing
MOKSHA: Journey into Freedom

SUBJECTS

ASANAS

A thorough knowledge of more advanced asanas, from the Advanced Diploma Manual of Shanti Yoga Asanas, along with the ability to identify postures appropriate to participants' needs, together with training teachers in the instruction of asanas.

INTRODUCTION STYLES TO HATHA YOGA

An understanding of the approach and emphasis of some of the common styles of Yoga taught and practised in the West, with class plans and tips gained from the lifelong Yoga experience of our Faculty of Teachers.

PRANAYAMA LEVEL 2 AND BANDHAS

In depth training in the principles, practice and teaching of specific, therapeutic pranayamas, along with the principles, practice and teaching of the more common Bandhas (or locks) which can be incorporated into Pranayama practices.

DHYANA (MEDITATION)

The seventh limb of Yoga, dhyana, is the prime tool for establishing a calm, steady and clear state of mind. This subject will train participants in the principles, practice and teaching of the more common meditation techniques from Shanti Gowans' book: *Inner Peace Handbook*.

CLASSES FOR SPECIAL NEEDS

As yoga teachers, we see a lot of injuries to bones and joints simply from 'weekend warrior' type of exercises that inappropriately jam too much exercise into a small space of time, and into a body that is not ready for this. Some yoga students who work and spend time at sedentary jobs during the week, try to make up for it by overdoing their exercise (and asana) efforts. As a result, joints start hurting, neck and back discs can pinch nerves, knees may be injured.

The Yoga Sutras offer a practical system of 10 guidelines for inspired decision-making. When you learn to employ these tools in daily living, you will be able to reliably access your own intuitive wisdom that will guide you to resolve every issue skilfully. These time-honoured guidelines will teach you how to transform the contractive power of unhelpful, stress-provoking, negative emotions and habits into an expansive, creative and dynamic force, in real-life situations that could include family, friends, work and recreation that will both prevent injuries and still help.

Application of your understanding in providing Yoga practices indicated (or contra-indicated) in some of the more common areas of special needs in the community, while training participants to make appropriate choices in the development of special needs classes such as:

The elderly
Tweens and teens
ADD & ADHD

Pregnancy Yoga
Healthy back
Introduction to Yoga Therapy

As a teacher, you must empower yourself and your students to gain a sense of control over their lives and thereby have more peace within themselves. Health care via an introduction to yoga and Ayurveda therapy is designed to provide an introductory overview of the principles of classical and applied Yoga and Ayurveda as prescriptive therapy, combining a knowledge of remedial therapies from both these sciences that include counselling on nutritional and lifestyle practices. Teachers wishing to train as Yoga Therapists will be encouraged to undertake further, specialised studies.

Curriculum is changed periodically to reflect the changing needs of the profession, to retain leadership in academic standards and to fulfil changing needs of the end user in the world.

ELECTIVES

The Yoga Sutras

Yoga Health: Ayurveda for Yoga Teachers

Hatha Yoga

Therapeutic Flow Pregnancy Yoga

Chair Yoga

Children's Yoga: Foundational + 18 months-5 years + Tweens and teens

Peaceful Warrior

Meditation for Teens Yoga for a Healthy Back

Assist Yoga

Improve your Teaching Skills

Yoga Nidra

Pranayama

Living Ayurveda

ADD-ON ELECTIVES

Asana Assisting and Adjusting, Safety Modifications and Effective Teaching Skills

The principles and practice of assisting students in a 'hands on' manner, commonly known as 'adjusting'.

FIRST AID TRAINING

The Shanti Yoga Health Institute strongly recommends CPR (cardiopulmonary resuscitation) and first aid training for all yoga teacher trainees (YTT). However, CPR/first aid training hours cannot be counted toward satisfying the minimum YTT curriculum hour requirements.

OUTCOMES

This course will provide you with a range of advanced knowledge, skills and specific competencies to enable you to be a much-needed senior yoga teacher in the community.

The learning outcomes in this program enable you to transfer and apply advanced theoretical concepts and technical skills to a range of situations. It offers opportunities to explore yoga teaching at an advanced level with an understanding of the physical, emotional and restorative effects of yoga postures, yoga breathing and relaxation, together with facilitating students in asana work. Such skills can be applied across a range of roles in a variety of contexts.

The course is designed to equip you as a yoga teacher with the skills to:

- Analyse, diagnose, design and execute judgments across a broad range of technical and management functions
- Generate ideas through the analysis of information and concepts at an abstract level
- Demonstrate a command of wide ranging, highly specialised, technical, creative and conceptual skills
- Demonstrate accountability for personal and group outputs.

In this course you will:

Learn to instruct a deeper level of yoga health to individuals and in groups

Develop advanced skills on how to structure and effectively teach a yoga class to a variety of levels and ages including children, teenagers and seniors

Learn to teach advanced yoga asana correctly with yoga breathing and safety features

Execute the principles of alignment and adjustment of advanced yoga postures

Teach advanced yoga exercises with integrity in small and large groups

Teach a series of advanced yoga exercise routines

Teach advanced pranayama (yoga breathing) techniques

Teach advanced yoga nidra (deep relaxation)

Teach specialised yoga concentration

Develop advanced interpersonal skills, teaching people, not just poses.

Teach yoga for pregnancy

Teach specialised classes for children

Teach yoga for special needs

- Yoga for a Healthy Back
- Restorative Yoga
- Therapeutic Flows
- Chair Yoga
- Yoga for Healthy Ageing
- Pregnancy Yoga
- Yoga for Cancer and Chronic Illness

In conclusion, as a potential Yoga instructor, you will need to demonstrate a broad knowledge base incorporating theoretical concepts with substantial depth in Yoga postures, breathing, meditation and relaxation and apply these skills to a range of situations; and as a yoga instructor, you will be directly responsible for the achievement of group and individual outcomes.

On successful completion of a course, you will be competent to perform duties appropriate to the relevant industries and sectors. A pathway to complementary medicine VET courses The Advanced Diploma of Therapeutic Yoga Teaching is also a pathway towards complementary medicine VET courses such as the Advanced Diploma of Ayurveda. As a graduate of Yoga, you can further your studies in the field of yoga together with ayurvedic medicine and therefore be better equipped to offer an extensive range of services to your clients whilst running your own business.

GOLD COAST - AUSTRALIA

Our campus is located on the beautiful Gold Coast of Australia, with proximity to shops, beaches, libraries and other facilities.

Why do we say this is the best yoga teacher training in the world?

Like no other school in the world, the Health Institute Australasia offers the most in-depth 600-hour, 1200-hour and 1800-hour hatha yoga teacher training courses.
