HEALTH INSTITUTE
A U S T R A L A S I A

DIPLOMA OF AYURVEDIC LIFESTYLE CONSULTATION

GOVERNMENT ACCREDITED
COURSE CODE HLT52615
CRICOS 0100555

The origin of Ayurveda can be traced back to the Vedic period wherein the dietary and health principles described in Ayurveda have branched out and developed on-goingly to fulfil modern day needs. Ayurveda focuses on natural health and healing; it embraces all areas of life, including health, the mind, career, relationships and universal spirituality. Diploma of Ayurvedic Lifestyle Consultation from the Health Institute Australia is a 600-hour Government Accredited, Austudy and CRICOS Approved Course. This course is designed for health seekers and is the foundational study course for Ayurvedic practitioners.

True health care reform starts
in your kitchen - not in government

BACKGROUND OF AYURVEDA

The word Ayurveda comes from two Sanskrit words: ayus - life, and veda – wisdom or knowledge. Ayurveda is a traditional Indian medicine 5000 years old. It is mentioned in Vedas, ancient religious and philosophy texts which are the oldest literature in the world, thus making Ayurveda medicine the oldest medicine in the world. In 1970s it became official complementary medicine of the west world. Ayurveda is not only about body, but gives us knowledge about spiritual, mental and social health. It teaches us how to understand our body, our nature and our individual connection of elements on physical, mental and emotional level. It pays special attention to nutrition and balanced life.

Three main roles of Ayurveda are:

Preventive measures

Consciousness about life source

Systematic diagnosis and suitable treatments

Ayurveda is based on the knowledge of five elements (space, air, fire, water and earth) which are represented as the three Doshas, the three biological principles (Vata, Pitta and Kapha) that control both physiology and psychology. Life is, according to Ayurveda, a combination of feelings, mind, body and soul. Though it deals with all four aspects, body care is Ayurveda's foundational priority. According to Ayurveda, the body is made out of three Doshas, seven tissues and three waste products (urine, faeces and sweat). Doshas act as mediators between tissues and waste products and their balance is vital for health. As long as body tissues receive needed nutrients for proper functioning and all waste products are effectively eliminated, you will be healthy.

Ayurveda's key for healing every disease, is underpinned by healthy nutrition adjusted to each person individually (according to their Doshic constitution), by plants and through lifestyle advice about gradual changes, adjusted to the life rhythm of each individual. Eight basic branches of Ayurveda are: paediatrics, gynecology, obstetrics, ophthalmology, geriatrics, otorhinolaryngology, toxicology, general medicine and surgery. Ayurveda is traditional Indian medicine and the oldest familiar medical system that helped developing all other systems.

CORE UNITS OF COMPETENCY

The Diploma of Ayurvedic Lifestyle Consultation is a course from the Australian Government's Health Training package. It has 18 Units of competency, out of which 5 of them are core Ayurvedic units, namely:

- HLTAYV001 Develop Ayurvedic practice
- HLTAYV002 Make Ayurvedic lifestyle assessments
- HLTAYV003 Provide Ayurvedic bodywork therapies
- HLTAYV004 Provide Ayurvedic lifestyle advice
- HLTAYV005 Provide advice on Ayurvedic nutrition

In addition, the remaining thirteen units from the Health Training Package, listed below.

- BSBESB401 Research and develop business plans. Online
- CHCDIV001 Work with diverse people. Online
- CHCCOM006 Establish and manage client relationships. Online
- CHCLEG003 Manage legal and ethical compliance. Online
- CHCCCS001 Address the needs of people with chronic disease. Online
- CHCPOL003 Research and apply evidence to practice. Online
- CHCMHS001 Work with people with mental health issues. Online

CHCMHS001	Work with people with mental health issues. Online
CHCPRP003	Reflect on and improve own professional practice. Online
HLTAAP002	Confirm physical health status. Online
HLTWHS004	Manage work health and safety. Online
HLTINF004	Manage the prevention and control of infection. Online
HLTHPS010	Interpret and use information about nutrition and diet. Online
HLTAID011	Provide first aid

Please note:

The units from the Health Training Package are prerequisites and a necessary part of the hierarchy before you attend your practicals and clinical training. This is because their subject matter must be incorporated into the practicals, as they are the underpinning Training Standards (in their various contexts) for the practicum.

The sooner you complete these, the sooner you can embark on the practicum.
